

1. A cigarette package comprising:
a crush proof box;
a plurality of cigarettes; and
a cigarette saver.

5

2. The cigarette package of claim 1, wherein the cigarette saver is a device having two end portions, wherein the first end portion includes an opening to a channel.

10

3. The cigarette package of claim 2, wherein the opening is elliptical.

4. The cigarette package of claim 3, wherein the opening is round.

15

5. The cigarette package of claim 2, wherein the width of the opening is greater than the diameter of one of the cigarettes.

6. The cigarette package of claim 5, wherein the length of the channel in the cigarette saver is less than the length of the cigarettes.

20

7. The cigarette package of claim 6, wherein the channel does not extend through the length of the cigarette saver.

8. The cigarette package of claim 7, wherein the end of the channel that terminates in the cigarette saver is tapered.

9. The cigarette package of claim 2, wherein the channel comprises a guide portion and an extinguishing portion.

10. The cigarette package of claim 1, wherein the cigarette saver is constructed from plastic.

11. The cigarette package of claim 1, wherein the cigarette saver is constructed from metal.

12. A cigarette saver, comprising:
a substantially rectangular body having two end portions and including a channel being open at an end portion of the substantially rectangular body and terminating in the substantially rectangular body.

13. The cigarette saver of claim 12, wherein the opening of the channel at the end portion of the substantially rectangular body is elliptical.

14. The cigarette saver of claim 12, wherein the width of the opening is greater than a cigarette's diameter.

15. The cigarette saver of claim 12, wherein the length of the channel in the cigarette saver is less than the length of a cigarette.

16. The cigarette saver of claim 15, wherein the channel does not extend
5 through the length of the cigarette saver.

17. The cigarette saver of claim 12, wherein the end of the channel that terminates in the cigarette saver is tapered.

18. A cigarette saver, comprising:
10 a device having two end portions, wherein the first end portion includes an opening to a channel.

19. The cigarette package of claim 18, wherein the opening is elliptical.

20. The cigarette package of claim 18, wherein the opening is round.

21. The cigarette package of claim 18, wherein the width of the opening is greater than a cigarette's diameter.

22. The cigarette package of claim 21, wherein the length of the channel in the cigarette saver is less than the length of a cigarette.

23. The cigarette package of claim 22, wherein the channel does not extend through the length of the cigarette saver.

24. The cigarette package of claim 23, wherein the end of the channel that terminates in the cigarette saver is tapered.

25. The cigarette package of claim 19, wherein the channel comprises a guide portion and an extinguishing portion.
